

ritter
QUALITY SINCE 1905

**Kitchen
Appliances**

ritter. Makes
more out of food.

Good food deserves good preparation and appreciation, because only then can fresh ingredients be enjoyed to the fullest. The finest tea can only develop its full flavor when it is brewed perfectly. The best steak is only a pleasure if it is cooked to perfection. The best ham only tastes good when it is finely sliced. Powerful, German precision in preparation turns food into joy. It doesn't have to be more, it doesn't have to be complicated, it just has to be perfectly prepared. Precise deli slicers and kitchen appliances with timeless aesthetics make you the sovereign master of enjoyment in the place that is most important to you: your home. And our customer service ensures that the precision of your ritter appliance is maintained even after many years.

ritter. Makes more out of food.

It doesn't have to be more,
it doesn't have to be
complicated, it just has to
be perfectly prepared.

Mastering preparation

Whether blending, pureeing or finely chopping: ritter enables you to prepare food to perfection and makes you the master of flavour.

Enjoy fresh

Fresh tastes better and processing fresh food is more sustainable. Since 1905, ritter kitchen appliances have been ensuring that only what is consumed is prepared, combining delightful freshness with sustainability.

German precision

German precision is at the heart of every ritter kitchen appliance: everything is carefully designed in Germany and manufactured to German standards. This ensures precise cutting, water boiling to the exact degree and accurate installation.

Timeless aesthetics

Committed to the legacy of the Bauhaus style, ritter appliances have a timeless aesthetic that fits seamlessly into any kitchen - without relying on short-lived design trends, leaving room for your individual style.

Deli slicer

ritter. Makes more out of food. The semi-professional slicers from ritterwerk represent the pinnacle of precision and quality. Developed for the home kitchen as well as for the discerning hobby chef, these slicers are the epitome of perfection - the perfect combination of form and function for which ritterwerk is renowned.

Ideal for culinary enthusiasts, the high-quality deli slicers from ritterwerk set a new standard in kitchen equipment, combining ritterwerk's heritage of quality with the demands of professional appliances.

Cut by cut to perfection.

Good food deserves good preparation and appreciation, because only then can fresh ingredients be enjoyed to the fullest. Powerful, German precision in preparation turns food into an indulgence. **It doesn't have to be more, it doesn't have to be complicated, it just has to be perfectly prepared.** The precise lupo¹³ deli slicer with its timeless aesthetics will make you a master of enjoyment!

Made from high-quality materials, the slicer is durable, robust and optimised for intensive use in a semi-professional environment. It is a pleasure to use, thanks to the powerful capacitor motor, which delivers enormous power and works extremely quietly. It is also equipped with a high-quality, extremely sharp and smooth circular blade that ensures evenly thin and precise slicing results - ideal for all foods that taste best when cut into wafer-thin slices. True to the Bauhaus style, this food slicer has a sleek, modern design that will enhance any sophisticated home environment.

The deli slicer from
ritter makes you
a master of taste.

Unique motor head

Fine adjustment of cutting thickness

Deli slicer lupo¹³

- full metal construction, inclined
- silver metallic
- unique motor head
- circular blade cover
- smooth ham- and sausage circular blade, 19 cm ø
- slice thickness adjustable up to approx. 22 mm
- safety switch
- easy-going metal carriage – broad-surfaced and detachable
- carriage way approx. 25.5 cm

Cordless hand blender lingus⁷

- cordless, battery-operated hand blender
- battery always charged thanks to intelligent charging station
- full metal construction
- LED battery level indicator
- three speed settings
- two-finger switch-on safety system
- automatic safety shut-off in case of overloading or overheating
- four stainless steel attachments:
 - universal cutter: used to blend most foods
 - cutting blade: suited for the cutting of meat and fibrous fruits and vegetables
 - whipping disk: used to whip creamy or fluffy foods
 - stirring disk: suited to stir foods with a thick, creamy consistency
- blending cup made of plastic

plug-in power supply unit for charging station: input voltage: 100 - 240 V, lithium-ion-battery: 7.4, Vdc; 2.2 Ah, TÜV-Rheinland/GS, CE

Kettle cavita⁵

- cordless kettle with 360° rotating base
- heat-resistant acrylic housing
- double-sided water level indicator
- safety lid with lock mechanism
- removable lime-scale filter
- covered heating element with stainless steel protector plate
- cord storage in the base with two cord exits
- four rubber feet to prevent slipping
- 70°, 80°, 95° and 100°C temperature settings with LED indicator
- overheating protection with automatic switch-off when the set temperature is reached
- boil-dry protection with automatic switch-off when kettle is empty
- automatic switch-off when kettle is removed from base
- 1.1 l capacity

Accessories hand blender

Hand blender attachments

Various foods can be chopped, blended, whipped, and mixed with the hand blender. ritter offers a variety of attachments, depending on the desired outcome and food consistency.

Universal cutter

This universal blade is suitable for chopping and blending most foods.

Cutting blade

The cutting blade is especially suitable for cutting of meat and fibrous fruits and vegetables such as asparagus, spinach or pineapple.

Whipping disk

The whipping disk is used to whip creamy or fluffy foods such as cream or egg whites.

Stirring disk

The stirring disk is suitable for stirring foods with a thick, creamy consistency such as mayonnaise, sauces or mashes.

Blending cup made of plastic

Thanks to its tall, narrow shape, the blending cup is perfect for food processing with the cordless hand blender by ritter. The filling capacity is 600 ml.

Subject to change without notice.

For accessories and spare parts please see: www.ritterwerk.com

Accessories food slicer

Circular blades for the food slicers

The slicing outcome is greatly dependent on the circular blade's polish, shape, and quality. As a result, ritter offers a variety of circular blades with different slicing capabilities for precise slicing. The serrated circular blade is ideal for all types of slicing. The smooth ham and sausage circular blade, in particular, slices soft foods into evenly thin slices.

Stainless steel circular blade

The standard circular blade is suitable for everyday use. The stainless steel circular blade is available serrated or as a smooth blade for hams and sausages.

Stainless steel circular blade with an electropolished surface

The stainless steel circular blade is electrolytically polished by a special procedure, resulting in an extremely smooth surface and even slicing edge. As a result, the circular blade may be cleaned more easily and the slicing results become even more accurate. Furthermore, the round blade features on an elegant, high polish look. The electropolished circular blade is available as serrated or as a smooth circular blade for ham and sausage.

Original ritter maintenance grease

The original ritter maintenance grease is suitable for all ritter food slicers. We recommend occasionally regreasing the gear wheels on the circular blade and the guiding of the slicing carriage.
